- **GRAPHQL**
- **HTML, CSS & JS**
- **BOOTSTRAP & ANTD**

About Me

Experienced MERN Stack Developer with 2 years of hands-on experience in web app development. Seeking opportunities for bootcamp and internship.

Experience

Mern Stack

SMIT (2022-2023)

- Collaborated on MERN stack projects, developing user-friendly web applications.
- Created responsive UIs using React and integrated APIs for data retrieval.
- Developed backend functionality using Node.js and Express.
- Utilized MongoDB to ensure efficient data management and scalability.
- Contributed to Agile processes, including standups and sprint planning.

Projects

Trend Blend

- Developed an e-commerce platform using MERN stack.
- Features: User authentication, product catalog, cart, Redux state management, Stripe integration.

EventLab

- "eventLab" is a dynamic website built using React and Firebase, offering users the opportunity to explore the latest events, purchase tickets, and an admin panel for event management.

Reference

- Available upon request
